A powerful little story that shows the way to a better life. If you're struggling, this book will make you smile, and might just help you turn things around. Chasing Comets tells the story of young pipe dreamer named Ted who yearns for a better life. He hates his day job, his apartment, and the amount of money he makes, or lack of it. Ted is under the impression that his life isn't what it should be, and that if he could just get that one idea to take off, everything would become amazing. One day, he decides to talk to one of the older guys on his office floor, Jim, hoping to get connected with a mysterious business mogul known only as The CEO. Jim is more than happy to introduce Ted to the man he comes to know as Devin. Over the course of the following week, Devin teaches Ted five principles that will lead him to a more fulfilling, happy life. Ted discovers that changing his focus from the things he doesn't have, to appreciating the things in his life and focusing on others, that incredible stuff begins to happen. Layered with humor, wisdom, and down-to-earth ideas, Chasing Comets is a heartwarming and inspiring story that gives hope to anyone who is searching for a more meaningful, happy existence.
