The story picks up where the first Treegate series book ended, at the Battle of Bunker's Hill. Peter and the Maclaren are captured by the British and placed on a prison ship in Boston Harbor. They escape with the help of Peace of God Manly, a New England sea captain, and the three become part of the crew of a ship carrying gunpowder to the Colonial army in Boston. The story takes them from Boston to New York to the crossing of the Delaware and back to the mountains of South Carolina.
