Imagine waking up not knowing who or where you are... The year is 2070, societal peace hangs in the balance as the most powerful corporation on the planet controls the governments and the police. The people are left suffering at every turn. A name man wakes in the hospital with no memory of who he is or how he came to be there. John Doe, as he's affectionately called by the hospital staff sets off in the pursuit of answers and gets drawn into a dangerous global conspiracy in a high-tech dystopia that's completely alien to him. Accompanied by a band of freedom fighting rebels, John must find out the truth to his past if he wants any chance at a future and saving the world.
