Being separated is one of the most unsettling issues for very young children and their parents. Now they can find help in a new edition of a simple classic, written over twenty years ago by Dorothy Corey. *You Go Away* is now in a larger format with new, bright, colorful pictures by Diane Paterson. The repetition and pattern in this book will reassure and comfort youngsters, all the while reinforcing the idea that while parents go away, they also come back. A multicultural crew of children and adult caregivers demonstrate different situations that involve parting and being happily reunited.
