[Siren Classic ManLove: Erotic Alternative Paranormal Romance, M/M, shape-shifters, HEA] TomCats is the hottest gay resort in Key West and the perfect place for Andrew Long to forget his cheating ex-boyfriend. Sexy tomcat Lyon Nash enjoys his life running the resort he owns with a group of cat-shifters. He's not looking for a mate, but the shy, uptight Andrew ignites a spark that his cat can't ignore. Captain Jack, the cruise director, is also attracted to Andrew, and he bets Lyon that he can seduce the new guest first. Lyon puts his Theorem of Seduction to the test and wins the bet. Things heat up between him and Andrew. They have a magical, mutual connection, but their relationship goes south when Andrew finds out about the bet. Once again he's been humiliated and he flies back to New York. At least he's bringing back the stray cat he adopted, but can the feline help him forget the charming cad he left behind?
