Thomas Bowden hates the Tories, the colonists who have sided with the English during the Revolutionary War. He especially hates their Native American allies who tortured and killed many of his neighbors in a terrible massacre. Still, he and his mother, sister, and baby brother have reached the safety of Philadelphia—but not for long. When Thomas recognizes a Tory spy, he is kidnapped, made to join a wagon train bringing arms and supplies to the enemy, and then turned over to a group of Mohawk fighters. Thomas fears the worst. Instead, over a winter spent in the Mohawk village, he discovers that truth in his wartime world is far more complicated than he ever imagined. Thomas is back, in an exciting and thought-provoking American Adventure.
