Praesidium is the most prosperous city-state in the world, due not only to its location at the mouth of a great bay, but also to its strict laws, stringently enforced. Ordinary criminals become bond-slaves, but the Wizard places traitors in Stasis, a dream frozen state. Ennek is the Chief's younger son. He has grown up without much of a purpose, a man who cannot fulfill his true desires and who skates on the edge of the law. But he is also haunted by the plight of one man, a prisoner for whom Stasis appears to be a truly horrible fate. If Ennek is to save that prisoner, he must explore Praesidium's deepest secrets as well as his own.
