Mario McGarrity has been around the block – and rink – more than a few times. He’s creeping up on retirement age, has some dings and dents, and says what’s on his mind. Not exactly what most would consider a luxury ride, but his beautiful Lila - the transgender woman who stole his heart - loves him like no other woman ever has despite a little rust here and there. Everything is good - no, great - aside from the distance issue, until a surprise from Lila’s past crops up and moves in with her. Can Mario be the family man that Lila needs, or is this one game the old vet is unable to skate in?
