There are certainly some interesting people in the town of Redville, and one of them is a thief! Lotty Lewis loves to solve problems, and uses a special chart called a logic matrix to organize her clues. Can Lotty and her friend Gavin gather enough information to solve the mystery? Logic puzzles for children have a myriad of benefits, including increased memory, deductive reasoning skills, and organizational skills. With quirky characters that young readers are bound to love, “Logic Lotty” is a fun and educational chapter book for children ages 7-10.
