Mega Heroes. Mega Harems. Mega Villains. Warning: This is probably too awesome for you to handle. Seriously. I was a nobody on Earth. But in the Ultraverse, I'm a god. Smoking hot women throw themselves at me. Panties melt. I've got the body of an underwear model, and I'm hung like a, well... you can figure it out. There's just one problem. Okay, maybe a few problems. Sinister supers threaten the galaxy, and it's up to me to stop them. Their power is devastating. Their tactics are ruth. They are hellbent on demolishing any super that stands in their way. If I'm going to stand a chance, I'll need to step up my game. But I can't do it alone. I'll need the help of a few good women. My power stems from my harem, and it's gonna have to get a whole lot bigger! The galaxy depends on it. Reader Note: If you like superheroes, space opera, steamy ladies, spicy times, polyamory, and non-stop action, this is the book for you! If that kind of thing scares you, put your tablet down and run! Read Super Mega today!
