"Emotion is a weakness". This has become Scarlett's permanent mantra. With her new attitude her voyage into this dark world continues. When new enemies and allies come to surface Scarlett leans on the people she trusts the most- Hugo and the Xs. Meanwhile, Hugo sets off on a unwanted rescue mission where his own story unfolds. With Hugo occupied Scarlett is left to rely on the one person she least expected to, the cold-hearted Ian. Forcing himself back into her life Scarlett begins to question everything she thought she knew about him, exposing a brand new side to him that rattles her core. Lurking in the shadows queen Ezarbet is back to her old tricks. With Opal by her side, they conjure up plans to upset the balance yet again. Can Hugo and the mysterious Flora stop it before it happens? Can Scarlett once again be the victor in this battle? Round 2 begins and this time.... All bets are off.
