Bartending at Atlanta's hottest nightclub—side by side with what may be the world's hottest man—fuels Bailey's already overactive sex drive. So she's beyond frustrated at her inability to reach orgasm by any means. Bar owner and incubus Griff knows all about Bailey's intense lust—because he feels it, too. So he's taken it upon himself to ease her through the cataclysmic Change from mortal to immortal succubus. He tells himself it's about saving her life, nothing more. But somewhere along the line, the purely physical passion they feel for one another becomes something much more complicated.
