17-year old vigilante Spencer Styles was used to coming face-to-face with danger. Whether it be a knife-wielding mugger, or a heavily armed bank robber, Spencer had seen it all. His hometown of Worcester, Massachusetts had given Spencer the opportunity to protect the city that he loved. However, he and his friends at the police department needed to keep things under control. That would come to be very difficult once a new breed of villain invaded the city. How would Spencer be able to battle an enemy that was beyond all understanding? Are there really supernatural forces of evil in the world? Is there more than what we can physically see? And what happens when the terrifying unknown tries to become one with the physical world? Spencer Styles would soon battle a curse that threatened to leave behind nothing but a world of ashes. The war between man and the otherworldly beast has begun...
