Christmas. That special time of year when we celebrate each other and the gift of life. Alec and Angel have a very different idea of how to celebrate Christmas. They were invited to an elite sex club for its annual Christmas party, and the theme is the twelve cock-tales of Christmas -- a sultry mix of alcohol and everything sensual that just might land you on Santa's naughty list, if not his lap. But like every good story, as it unfolds, will Alec and Angel withstand the curve balls life throws in their path? Love isn't always so cut and dried, the weather outside is frightful, and lives may be lost in this erotic Christmas tale.
