Lia Meyers' plan for a relaxing Scottish vacation is short-lived when one uncharacteristic moment of clumsiness lands her in the arms of a dangerously attractive Englishman... The perfect opportunity for a much needed holiday romance? Wrong! Lia's still reeling from the mother of all bad breakups, and she really doesn't have the patience for Alastair Holden – despite his effort charm and cute British accent! Arrogant and totally inscrutable, he's exactly the sort of guy she wants to avoid but can't: the man behind the mystery proves just too tempting to resist. Drawn to him, Lia is forced to battle with her own insecurities, and the closer they become, the more she recognizes her own weaknesses as she peels away his layers with every night they spend together. Discovering the past Alastair is so desperate to conceal, Lia must decide if they can heal one another together or if their deepest fears will tear them apart.
